Department of Industrial Engineering and Management

JSSATE IEM Student Forum

A student forum named JSSATE IEM student forum was established by the Department of Industrial Engineering and management in the year 2012. It is a medium through which students express their technical and non-technical ideas through open meetings and discussions. In 2012 it was restricted to department level in which few technical talks and seminars were conducted.

Scope & objectives

This Forum provides opportunity to students to discover hidden talents. This forum gives a platform to students, to exhibit technical skill, presentation skill, communication skill in organizing various events for students in the technical field.

Few other major events organized by JSSATE IEM Student Forum are:

Establishing of JSSATE IEM student’s forum has gained students by the following aspects

1. **Gain Confidence:** Students who were not as confident in a social environment this forum has helped them to gain confidence in their technical subject and has helped them reach new heights.
2. **Gain New Skills:** It is not to say that this forum can only benefit those who are lacking in social skills; even those who excel in expressing their opinions in a group conversation has used this forum to hone their listening skills and being able to critique what others have said. Observing how others gather their thoughts and form opinions has helped every student to improve their own communication skills.

- Resource Library :** Regular use of JSSATE IEM Student forum provides a bank of resources that students may find useful to refer back to. Rather than learning it by themselves. A group study is always better than individual study.
- Good Placement offers:** Since students acquire confidence and better skills. They have achieved good placement offers with good pay package
